Subject: Invitation as Expert Speaker.

Dear Sir,

Greetings from YSPM'S, Yashoda Technical Campus, Faculty of Engineering, Satara!!!

Hon. Shri. Dasharath Sagare Sir established Yashoda Shikshan Prasarak Mandal (YSPM) education trust, which was established in the year 2009. The trust also has institutes working in the field of Primary, Secondary & Higher Secondary School education for over 33 years. YSPM has many eminent personalities from the field of education and industry on its advisory body, whose rich experience and guidance benefit YSPM.

Yashoda Technical Campus (YTC) was established to impart quality technical education at an affordable cost and contribute to the industrial growth of our nation. The institution is approved by the All India Council for Technical Education (AICTE), New Delhi, recognized by the Directorate of Technical Education (DTE), Government of Maharashtra. Yashoda Technical Campus has been rated as B+ Grade by NAAC council in the year 2018.

The CSE Department was established in the year 2011. It offers an undergraduate course with an intake of 120 students. It has state-of-the-art laboratories equipped with all the required facilities to nurture students and to provide them with industrial exposure.

We are pleased to **invite** you at Department of Computer Science and Engineering, YSPM's, Yashoda Technical Campus, Faculty of Engineering, Satara as an **expert speaker for a 2-day workshop under CISCO's on "Green Computing" from 22/02/2023 to 23/02/2023.**

We hope you will be able to fit the event in your busy schedule. The participants and organizers will be benefitting a lot from your expertise in the topic.

We look forward to your positive response to accept our invitation.

ACTIVITY REPORT 15.06.2023

ONE DAY STUDENT DEVELOPMENT PROGRAM ON

**'GROOMING YOUR PERSONALITY' IN ASSOCIATION WITH THE
ACCENTURE SOLUTIONS PVT. LTD.**

Students' Personality Development Program conducted for MBA students of Yashoda Technical Campus, aimed at enhancing their personal and professional growth on 15th June, 2023. The program incorporated various activities, workshops, and coaching sessions to develop essential skills, boost self-confidence, improve communication abilities, and foster leadership qualities among the participants. The resource Person was Mr. Mehul Shah of Accenture Solutions Pvt. Ltd. He briefly explained the significance of personality development for MBA students and stated the objectives of the Personality Development Program. Grooming one's personality is essential for personal and professional development. Here are some reasons highlighting the importance of grooming one's personality:

1. **Self-Confidence:** Developing a strong personality instills self-confidence. When individuals have confidence in themselves, they can effectively communicate, make decisions, and handle challenges with poise and assertiveness.
2. **Effective Communication:** Personality grooming helps individuals enhance their communication skills, both verbal and non-verbal. Effective communication allows individuals to express themselves clearly, build relationships, and collaborate successfully with others.
3. **Professional Growth:** A well-groomed personality is often associated with professionalism. It can positively impact career opportunities and advancement by leaving a lasting impression on employers, colleagues, and clients.

20

4. Leadership Abilities: Personality development nurtures leadership qualities such as assertiveness, empathy, and problem-solving skills. These attributes are crucial for leading teams, making decisions, and inspiring others to achieve collective goals.

Grooming one's personality is crucial for personal growth, professional success, and meaningful relationships. It enables individuals to project their best selves, build confidence, communicate effectively, and develop essential skills necessary for navigating various aspects of life. By implementing a comprehensive Personality Development Program, MBA students were provided with a platform to enhance their personal and professional skills, ultimately preparing them for future leadership roles. The program's positive outcomes and participant feedback demonstrate its effectiveness in fostering holistic growth among MBA students. Ongoing support and continuous improvement will ensure the sustained impact of such programs in the future.

**ADVANCE EXCEL: INDUSTRY READY GLOBAL CERTIFICATION
COURSE**

Faculty of MBA recognizing the importance of Industry Ready Global certifications for Management graduated provided Microsoft Advance excel Certification training to the MBA students.

It's been last five years that the management students are doing such certificate courses. In the today's era of globalization and changing business environment, the expertise in a particular domain is highly important. In order to make the students ready for the final placements with excellent knowledge of Microsoft excel being a widely used tool for the data analysis and report preparations, this course is delivered to the students. Advanced excel provides excellent insight into the advanced features of Microsoft Excel. Advanced Excel training is very beneficial for candidates looking to begin a career as an MIS Analyst, Data Analyst, or Business Analyst in Microsoft Excel.

It is a unique tool for students and working professionals that need to be able to use Power Pivot Tables, VBA, Power Query, MIS Reporting and audit worksheet data, or utilize data tools. Advanced Excel course adds value to your resume and can give you an edge over other candidates. The majority of people needed to learn more about advanced Excel. MS Excel skills can open doors to data analysis, business analysis, and MIS. The job market offers excellent opportunities for advanced Excel course. Data science and big data are both lucrative fields that offer attractive salaries.

Course Title: Hands on workshop on Arduino Microcontroller, IOT and PCB Design

Course Duration: 30 Hours (1st September 2021 to 5th September 2021)

Course Overview:

The objective of workshop is designed to provide the students with practical information for electrical and electronic basic components testing cross testing and selection method. To learn basic fundamentals and working of Arduino, Microcontroller and IOT, SCADA and PLC sensors.

Prerequisites:

1. Basic understanding of programming concepts
2. Basic understanding of electrical and electronic components, its working and circuit fundamentals

Syllabus:

1. Testing and cross testing of different types of switches like SP switch, SPDT switch, Rotary switch, changeover switch
2. Testing of capacitors, circuit breakers, all types of fuses, inductors, rectifiers, isolators, resistors, relays, MCB etc.
3. Control panel cabling, lug crimping and numbering. Proper soldering and types of soldering
4. Basic fundamental of microcontroller and IOT.
5. Basic fundamental of Arduino code, SCADA and PLC.
6. Working operation of all types of sensors like ultrasonic sensor, soil moisture sensor, gas sensor, fire sensor, inductive sensor etc.
7. Practice of 14X2, 20X2, 20X4 and 16X2 display.
8. Interfacing of Arduino with circuit.

Outcomes:

After successful completion of this course students are able to

1. Read schematic diagram of electrical and electronic circuit
2. Build Prototype circuit on breadboard
3. Do programming and connect the circuit to the Arduino.
4. Identify different types of sensors

Subject: Invitation as Expert Speaker.

Dear Sir,

Greetings from YSPM'S, Yashoda Technical Campus, Faculty of Engineering, Satara!!!

Hon. Shri. Dasharath Sagare Sir established Yashoda Shikshan Prasarak Mandal (YSPM) education trust, which was established in the year 2009. The trust also has institutes working in the field of Primary, Secondary & Higher Secondary School education for over 33 years. YSPM has many eminent personalities from the field of education and industry on its advisory body, whose rich experience and guidance benefit YSPM.

Yashoda Technical Campus (YTC) was established to impart quality technical education at an affordable cost and contribute to the industrial growth of our nation. The institution is approved by the All India Council for Technical Education (AICTE), New Delhi, recognized by the Directorate of Technical Education (DTE), Government of Maharashtra. Yashoda Technical Campus has been rated as B+ Grade by NAAC council in the year 2018.

The CSE Department was established in the year 2011. It offers an undergraduate course with an intake of 120 students. It has state-of-the-art laboratories equipped with all the required facilities to nurture students and to provide them with industrial exposure.

We are pleased to **invite** you at Department of Computer Science and Engineering, YSPM's, Yashoda Technical Campus, Faculty of Engineering, Satara as an **expert speaker for a one-day workshop under CISCO's on "Green Computing" on 31/03/2022.**

We hope you will be able to fit the event in your busy schedule. The participants and organizers will be benefitting a lot from your expertise in the topic.

We look forward to your positive response to accept our invitation.

Thanking you.

Course Title: C Programming

Course Duration: 30 hours [22nd February 2021- 31st March 2021]

Course Overview:

This course serves as an introduction to the C programming language, covering basic concepts, syntax, and practical applications. Participants will learn fundamental programming constructs and techniques to develop and debug C programs.

Prerequisites:

1. Basic understanding of programming concepts
2. Familiarity with any programming language is helpful but not required
3. Access to a computer with internet connectivity for practicing coding exercises

Syllabus of C Programming Add-on course:

1. Introduction to C: History of C, Features of C, Applications of C, Keywords
2. Basic structure of c program: Tokens, Identifiers, Constants
3. Variables and Data types
4. Operators: Arithmetic Operator, Relational Operator, Logical Operator, Assignment Operator, Bitwise Operator, Incremental and Decremental Operator, etc.
5. Control Flow structures: While, For, Do While
6. Control/ Decision Making Statements: if, if-else, Nested if, if-else ladder, Switch Case
7. Functions: Function type, Built-in function, User-defined functions, call by value and call by reference
8. Array: Introduction to Array, Types of Array, 1d Array, 2d Array
9. Pointers: Pointer types, void Pointer, Null pointer, Array Pointers, etc.
10. Structures

Outcome: Upon successful completion of the course, participants will:

1. Have a strong foundation in C programming fundamentals
2. Understand core programming concepts such as variables, control structures, and functions
3. Be proficient in handling arrays, strings, pointers, and memory management in C
4. Be able to develop and debug simple to moderately complex C programs

Report on C Programming Add On Course.

Date: 31/03/2021

Faculty of MCA had organized an Add On course on C Programming for students of MCA I. The Speaker for the session was Dr. M. D. Bhosale. The session was 30 hours training for students giving them a clear understanding The C Programming Add-on Course provided participants with a comprehensive understanding of fundamental programming concepts and techniques using the C programming language. The sessions were conducted from 10:00 – 10:00 AM from 22nd February to 31st March 2021 in Online Mode.

The key take-aways of the sessions were as follows:

1. Introduction to C:

Participants were introduced to the history of C, highlighting its evolution and significance in the field of programming. They explored the features and applications of C, emphasizing its versatility and widespread use in system programming, embedded systems, and application development. An overview of keywords in C was provided, laying the groundwork for further exploration of the language.

2. Basic Structure of C Program:

The course delved into the basic structure of C programs, covering tokens, identifiers, and constants. Participants learned the syntax rules governing the organization of C programs, facilitating their understanding of subsequent programming concepts.

3. Variables and Data Types:

Fundamental concepts of variables and data types in C were elucidated, including the declaration and initialization of variables. Participants gained insights into various data types such as integers, floating-point numbers, characters, and their storage requirements.

4. Operators:

The course covered a comprehensive range of operators in C, including arithmetic, relational, logical, assignment, bitwise, and incremental/decremental operators. Participants learned to manipulate data using these operators and understand their precedence and associativity.

5. Control Flow Structures:

Control flow structures such as while, for, and do-while loops were explored in detail. Participants learned how to use these structures to control the flow of execution in C programs and iteratively perform tasks based on specified conditions.

6. Control/Decision Making Statements:

Participants gained proficiency in utilizing decision-making statements such as if, if-else, nested if, and switch-case constructs. They learned to implement conditional logic to execute different code blocks based on varying conditions.

7. Functions:

The course introduced participants to functions in C, covering function types, built-in functions, and user-defined functions. Participants learned the concepts of call by value and call by reference, enabling them to pass arguments to functions efficiently.

8. Array:

Fundamentals of arrays in C were discussed, including the types of arrays and their declaration. Participants gained practical experience in working with one-dimensional and two-dimensional arrays, facilitating the storage and manipulation of data in structured formats.

9. Pointers:

Participants explored the concept of pointers in C, including pointer types, void pointers, null pointers, and array pointers. They learned how to utilize pointers to manipulate memory addresses and access data stored in different memory locations.

10. Structures:

The course concluded with an introduction to structures in C, enabling participants to define custom data types consisting of multiple variables of different data types. Participants learned to create and manipulate structures to organize and manage complex data efficiently.

The C Programming Add-on Course provided participants with a comprehensive understanding of fundamental programming concepts and techniques using the C programming language. Through theoretical explanations and practical exercises, participants developed practical skills essential for software development and programming.

Course Duration: 30 Hours

Course Overview:

The objectives of course are designed to provide the student with practical information for Advance control system in industry sector., generation, transmission and distribution system current and direct current motors, and controllers. PLC, SCADA.

Syllabus:

Six Modules:

- (1) Advance control system in industry sector.
- (2) Basic fundamental of advance digital control system.
- (3) Basic fundamental and working of PLC and SCADA system
- (4) Study of advance generation, transmission and distribution system.
- (5) Study of ac and DC machines design and construction
- (6) Study of industrial earthing, capacitor testing, CT-PT testing, circuit breakers, controller and insulator.

This workshop is organized under **Electrical Engineering Students Association (EESA)** to provide opportunity for participants to get information about various electrical motors. Study of advance generation, transmission and distribution system. PLC and SCADA. Various application advance control system industrial purpose. The idea of industries approach for PLC and SCADA has increased in last decade which is why this workshop has been carried out.

Outcomes:

After successful completion of this course students are able to

1. Discuss advance digital control system.
2. Explain application of PLC and SCADA in power system and industry.
3. Explain application of advance control system industrial purpose
4. Understand industrial earthing, capacitor testing, CT- PT testing, CB testing

1. Basic understanding of software development concepts
2. Familiarity with web browsers and internet usage
3. Access to a computer with internet connectivity for practicing exercises

Chapter 1: Introduction to Software Testing

1. Overview of software testing and its importance
2. Types of testing: Functional vs. non-functional testing
3. Introduction to testing documentation: Test plans, test cases, and bug reports

Chapter 2: Manual Testing Fundamentals

1. Principles of manual testing
2. Writing test cases: Equivalence partitioning, boundary value analysis
3. Executing test cases and reporting defects

Chapter 3: Introduction to Automation Testing

1. Advantages of automation testing
2. Overview of popular automation testing tools: Selenium, Appium
3. Setting up a basic automation testing environment

Chapter 4: Introduction to Selenium WebDriver

1. Basics of Selenium WebDriver
2. Writing and executing basic automation scripts
3. Handling common web elements: Textboxes, buttons, dropdowns

DIRECTOR
Yashoda Technical Campus
Satara

Chapter 5: Enhancing Automation Scripts

1. Data-driven testing: Parameterizing test cases
2. Implementing basic assertions

Resources:

1. Lecture slides and practical exercises provided by instructors
2. Recommended tutorials and documentation for further learning
3. Virtual lab environments for practicing automation testing

Outcome:

Upon completion of the course, participants will:

1. Understand the fundamentals of manual and automation testing
2. Be able to write and execute test cases manually
3. Have basic proficiency in writing and executing automation scripts using Selenium WebDriver
4. Be equipped to apply testing principles in real-world scenarios

ONE WEEK VALUE ADDITION HANDS ON TRAINING PROGRAM

Course Title: Basic fundamental of smart industrial automation using IOT & PCB Design (SCADA & PLC introductory)

Course Duration: 30 Hours (03/03/2020 to 07/03/2020)

Course Overview:

This course will help students to get practical skills and knowledge in the fundamentals of PLC and SCADA system. This course will provide information about different types of sensors and controllers used in the circuit. Also students will get knowledge about the PCB design and testing.

Syllabus:

1. Study of IOT, SCADA & PLC Sensors
 - Basic fundamental of SCADA, PLC and IoT system.
 - Basic information of analog and digital Sensors.
 - Basic fundamental of IOT system and component.
 - Practice of IOT sensors ultrasonic sensor, soil moisture sensor, gas sensor, temperature sensor, current sensor, IR sensor, PIR sensor, motion sensor, dust sensor, fire sensor, alcohol sensor, inductive sensor, flow measurement sensor e, weight sensor, joystick etc.
 - Practices of 14×2, 20×2, 20×4 and 16×2 display.
 - Practices of GSM module and Bluetooth module.
2. PCB DESIGN AND ASSEMBLY
 - Basic information of manual circuit assembling method.
 - Practice of manual circuit design, assemble and testing method.
 - Basic information of chemical circuit assembling method.
 - Practice of chemical circuit design, assemble and testing method
3. ALL TYPE IOT, SCADA & PLC MACHINE CONTROLLERS
 - Study of all type controller's voltage controller, current controller, frequency controller, temperature controller testing assembly and fault finding.
 - Practice of digital second timer, mint timer and hour's timer.
 - Basic information of control units
 - Practice of temperature and RPM control units.

Course Title: Introduction to Web Development

Course Duration: 30 Hours [17th Dec 2018- 25th Jan 2019]

Prerequisites:

1. Basic understanding of computer science concepts
2. Familiarity with any programming language is helpful but not required
3. Access to a computer with internet connectivity for practicing coding exercises

Chapter 1: Understanding Web Development

- a. Overview of web technologies
- b. Client-side vs. server-side scripting
- c. Introduction to HTML, CSS, and JavaScript

Chapter 2: HTML Fundamentals

- a. Structure of HTML documents
- b. HTML tags and elements
- c. Creating forms and multimedia content

Chapter 3: Styling with CSS

- a. Basics of CSS: Selectors, properties, and values
- b. CSS box model
- c. Introduction to CSS frameworks like Bootstrap

Chapter 4: JavaScript Basics

- a. Introduction to JavaScript: Syntax and data types
- b. Variables, operators, and control structures
- c. Functions and scope

Chapter 5: Responsive Web Design

- a. Principles of responsive design
- b. CSS media queries
- c. Introduction to CSS Grid

Chapter 6: Introduction to Back-End Development

- a. Overview of back-end technologies
- b. Basics of server-side programming
- c. Introduction to databases (SQL vs. NoSQL)

Chapter 7: Building a Simple Web Application

- a. Integrating front-end and back-end components
- b. Setting up a development environment
- c. Building a basic CRUD (Create, Read, Update, Delete) application

Add-on Course Outcome:

Upon completion of this 3-day course, students will:

1. Understand the fundamentals of web development including HTML, CSS, and JavaScript.
2. Be able to create basic web pages and style them using CSS.
3. Have hands-on experience with JavaScript for interactivity and DOM manipulation.
4. Gain insight into back-end development and database integration for building web applications.

THANKING LETTER

To

Mr. Suraj. A. Pawar
(Unique House Design Satara)

Respected Sir,

We are very much thankful to you for accepting our request for delivering a lecture on the topic “(SDP on managing Tools and Projects in AUTOCADD)” under the subject of SY B-Tech (Civil) Building Planning and CAD Lab, conducted at our institute from Sat. to Thur. (8th April to 13th April) in association with ISTE Student Chapter and CESA Club. On behalf of the management of the Yashoda Technical Campus Satara, we would like to place on record our sincere thanks for the same.

The students of our institute have been fortunate to have an occasion to be taught, by good self. I am confident that it will go on a long way in improving their understanding of the subject.

We look forward to your suggestion, continued guidance & support in the future to enable us to constantly improve the standards of our institute.

Thanking You

Regards,

H.O.D.

One Week Student Development Program on
“Programming with C++”

Computer Science and Engineering department had organized one week **Student Development Program on Programming with C++** from 5th September 2022 to 8th September 2022 and 12th September 2022 and the timings would be from 10 AM to 4.40 PM. This Student Development Program was carried out for one week where the students were exposed to C++ programming environment. It was focused on detailed knowledge of Object Oriented Programming with C++.

The Inauguration Program was started at 10:30am on 5th September 2022. For the Program the Chief guest was Hon. Prof. Ajinkya Sagare, Vice-president of YSPM's Yashoda Technical Campus, Satara, Dr. D.S. Badkar, Principal Faculty of Engineering, YTC, Satara, Mr. Ganesh Survase, Registrar, YTC Satara and Dr. S.V. Balshetwar, HOD CSE department, YTC, Satara were present for the Program.

Speaker of the SDP: - Mrs. Vaishnavi Malusare

Designation: - GTT Certified Trainer

SDP coordinator:- Prof. H.O. Tapase and Prof. A.A. Shikalgar

Total Present Students: - 89

Workshop Contents:

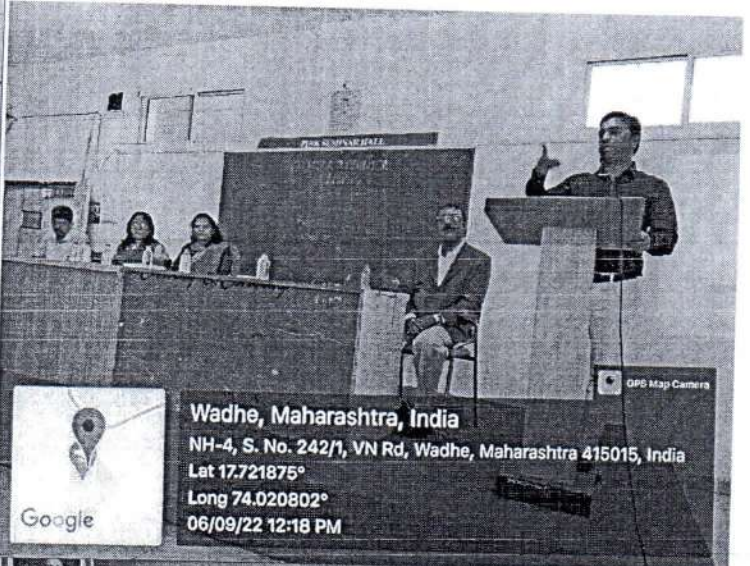

The Student Development Program where a detailed Programming of C++ was conducted by Mrs. Vaishnavi Malusare. She explained Fundamentals of C++ that is Introduction to Object oriented programming, Features, Concepts(Object, class, Encapsulation etc, Basic I/O operations, Data types, Operators. She also has covered Introduction to Programming, Array and Functions, Class and Programming on it.

She also had covered Interview Preparation of students on Polymorphism, Overloading, Programs base on overall concepts these by showing some examples, how the commands are taken from also the students were asked to program along so that they too will gain some hands-on experience. She gave guidance to students also explained the scope of C++ programming and the career opportunities available and how a student can prepare himself in this particular field. Along with that, various student engagement activities were carried out with some fun activities which everyone enjoyed.

NPTEL-AICTE Faculty Development Programme

(Funded by the MoE, Govt. of India)

This certificate is awarded to

AMRUTA UMESH MOHITE

for successfully completing the course

VLSI Signal Processing

with a consolidated score of **54 %**

Prof. Andrew Thangaraj
NPTEL Coordinator
IIT Madras

(Feb-Apr 2023)

Roll No: NPTEL23EE44S44600619

Duration of NPTEL course : 8 Weeks

The candidate has studied the above course through MOOCs mode, has submitted online assignments and passed proctored exams.
This certificate is therefore acceptable for promotions under CAS as per AICTE notifications dated 24th July 2018, similar to other refresher / orientation courses.

Report of Add on Course on "Staad Pro v8i Software Analysis"

Yashoda Shikshan Prasarak Mandal's Yashoda Technical Campus, Faculty of Engineering Wadhe Phata, Satara is organized a Workshop on "STAAD PRO v8i Software Analysis" under the Guidance of Mr. Varbhay S. Nikam (Vedanta Consultants) from 01 Sept 2021 to 14 th Sept 2021.

The objectives of workshop are to understand the importance of STAAD PRO Software, to get information about STAAD PRO Software, create awareness among students about software used in civil engineering work. Students will be able to design 2D & 3D the Project by using STAAD PRO Software.

To fulfill the motto this workshop is intended to provide an understanding of various modern processes in civil engineering by STAAD PRO Software. After this workshop participants will be able to design & drawing 2D & 3D the Project by using STAAD PRO Software.

This workshop is organized to provide opportunity for participants to get information about STAAD PRO Software. The STAAD PRO is very important in all the fields of civil engineering work. The objectives of workshop are to know the fundamental science and engineering principles relevant to use of software in civil engineering practical purpose. The necessity to have experimental and computational skills for a professional career in study of software is important.

FACULTY OF MBA
Orientation program on Investment Planning**

The Faculty of MBA organized an orientation on Investment Planning dated May 26, 2022. The session was led by Mr. Praveen Jilha, Chief Manager, Business Development – DNS Securities, Pune. The session focused on emphasizing the importance of planning for future care, how to protect the assets. It highlighted stating on a sound Investment strategy is one of the key of financial success.

In the fast moving uncertain world, the ability to filter out from available alternatives and focus on what truly matters based on one's own risk and return is critical to developing a sound financial plan. The session showed the way to achieve long-term financial goals and objectives. It also covered a wide range of topics that can help students to take control of their financial future.

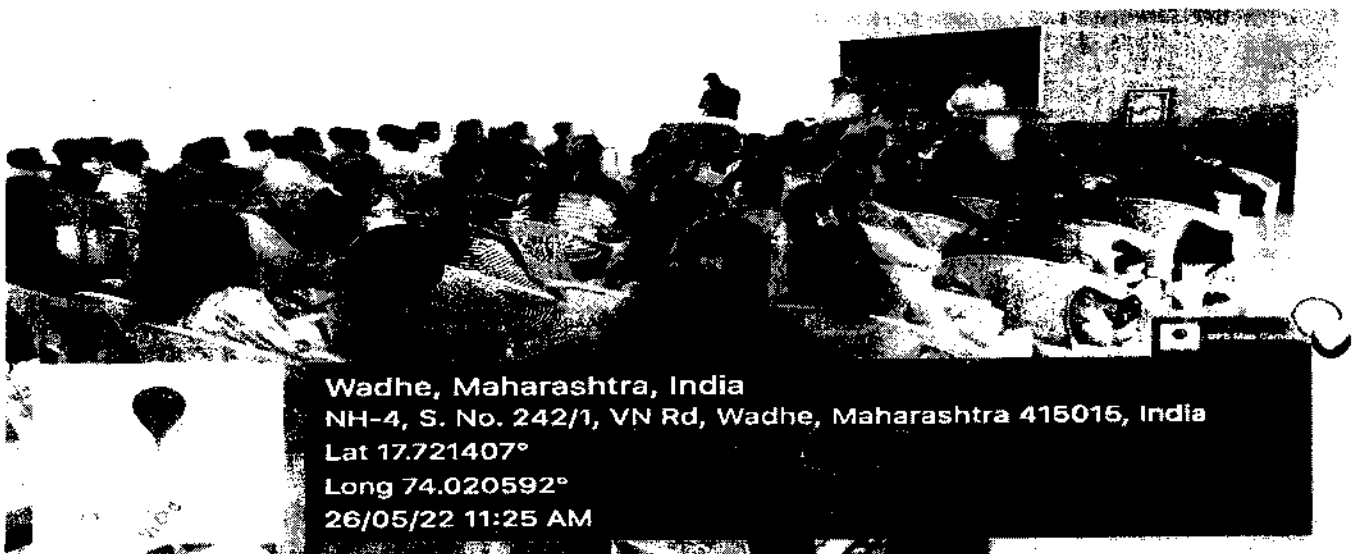

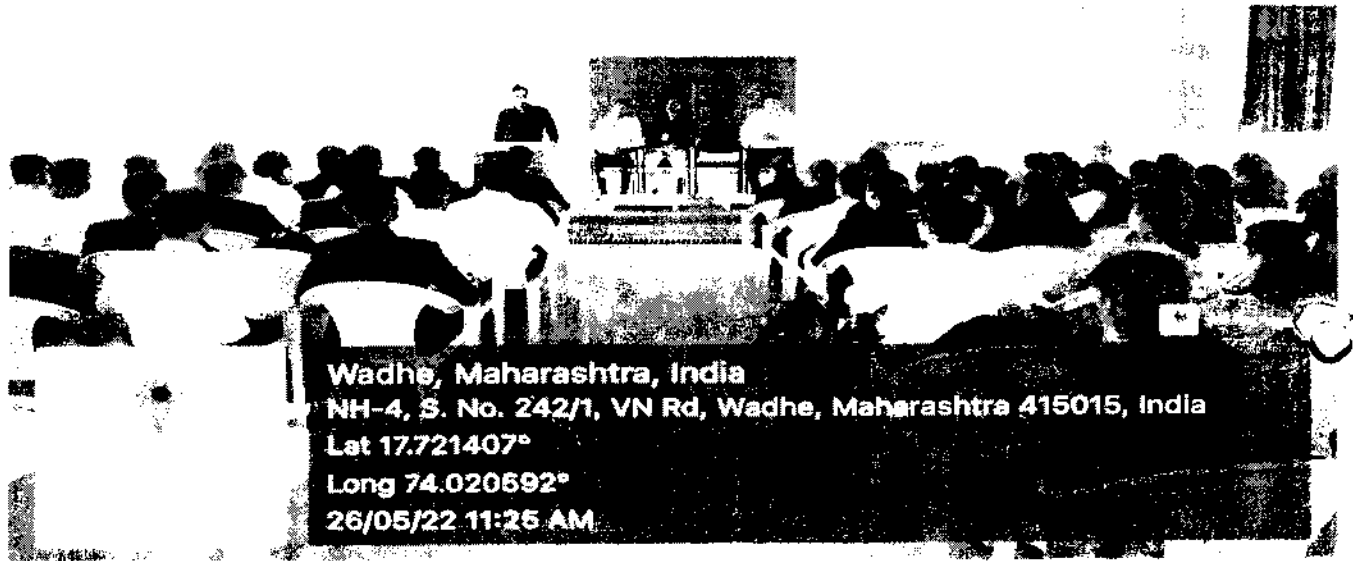

It was a really informative session since the budding corporate professionals received knowledge about how to manage their portfolio of investment considering the future liquidity needs, the time horizon available before them and with the due consideration of risk and reward benefits.

The individual life cycle stages and their choices of investment avenues is changing as per their priorities and the same has to be understood by the MBA students in order to become a good investment advisor. The purpose of his orientation session was to enable budding managers about Review of investment avenues, Specification of investment objectives, Formulation investment strategy, Selection of securities/assets, Performance.

Report on Basic Manual and Automation Testing Course.

Date: 16/03/2020

Faculty of MCA had organized an Add On course on Basic Manual and Automation Testing Course for students of MCA I. The Speaker for the session was Mr. Suraj Shelake Sir, I-soft solutions, Satara. The session was 30 hours training for students giving them a clear understanding of Software Engineering and Project Development. The sessions were conducted from 9:00 – 10:00 AM from 9th December 2019 to 17th January 2020.

The key take-aways of the sessions were as follows:

Chapter 1: Introduction to Software Testing

This chapter offered an overview of software testing, emphasizing its importance in ensuring software quality. Participants learned about the distinction between functional and non-functional testing and were introduced to essential testing documentation including test plans, test cases, and bug reports.

Chapter 2: Manual Testing Fundamentals

Participants gained an understanding of the principles of manual testing, including the process of writing test cases using techniques such as equivalence partitioning and boundary value analysis. Practical exercises focused on executing test cases and effectively reporting defects.

Chapter 3: Introduction to Automation Testing

The advantages of automation testing were discussed in this chapter, highlighting its efficiency and repeatability. Participants were introduced to popular automation testing tools such as Selenium and Appium, and learned how to set up a basic automation testing environment.

Chapter 4: Introduction to Selenium WebDriver

Participants were introduced to the basics of Selenium WebDriver, including its features and capabilities. Practical exercises focused on writing and executing basic automation scripts using Selenium WebDriver, with an emphasis on handling common web elements such as textboxes, buttons, and dropdowns.

Chapter 5: Enhancing Automation Scripts

This chapter covered advanced topics in automation testing, including data-driven testing and implementing basic assertions. Participants learned how to parameterize test cases for data-driven testing and how to add assertions to verify expected outcomes in automated tests.

Suraj Shelake
DIRECTOR
Yashoda Technical Campus

Report on Introduction to Web Development

Date: 28/01/2019

Faculty of MCA had organized an Add On course on Introduction to Web Development for students of MCA I. The Speaker for the session was Mr. Ajinkya More Sir, I-soft solutions, Satara. The session was 30 hours training for students giving them a clear understanding of Web Development, Fundamentals, Database, etc. The sessions were conducted from 9:00 – 10:00 AM from 17th December 2018 to 25th January 2019.

The key take-aways of the sessions were as follows:

Chapter 1: Understanding Web Development

This chapter provided an overview of web technologies, distinguishing between client-side and server-side scripting. Participants were introduced to the core components of web development: HTML, CSS, and JavaScript.

Chapter 2: HTML Fundamentals

Participants learned about the structure of HTML documents, including various HTML tags and elements used for structuring web content. Practical exercises focused on creating forms and incorporating multimedia content into web pages.

Chapter 3: Styling with CSS

Basic concepts of CSS were covered, including selectors, properties, and values. Participants gained an understanding of the CSS box model and were introduced to popular CSS frameworks such as Bootstrap for efficient styling.

Chapter 4: JavaScript Basics

This chapter introduced participants to JavaScript, covering syntax, data types, variables, operators, control structures, functions, and scope. Practical exercises enabled participants to apply JavaScript concepts to enhance interactivity in web pages.

Chapter 5: Responsive Web Design

Principles of responsive design were elucidated, emphasizing the importance of accommodating diverse screen sizes and devices. Participants learned about CSS media queries and were introduced to CSS Grid for creating responsive layouts.

Chapter 6: Introduction to Back-End Development

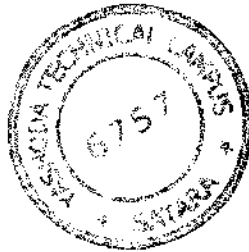

Participants were introduced to back-end technologies, server-side programming basics, and databases. The differences between SQL and NoSQL databases were discussed, providing participants with insights into selecting appropriate data storage solutions for web applications.

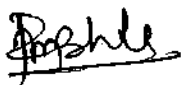

Chapter 7: Building a Simple Web Application

The final chapter focused on integrating front-end and back-end components to build a basic CRUD (Create, Read, Update, Delete) web application. Participants learned to set up a development environment and implemented a simple web application with both client-side and server-side functionalities.

The "Understanding Web Development" course provided participants with a comprehensive introduction to the key components of web development, including HTML, CSS, JavaScript, responsive design, back-end development, and application building. Through a combination of theoretical concepts and hands-on exercises, participants gained practical skills essential for creating dynamic and responsive web applications.
